

New Report Preview Fields

SmartNPS360 — fields added for Report an Issue and Incident Report
(vs onsite / patrol reports, which do not use these form fields)

1. Report an Issue

Preview form for security, maintenance, or other site issues. Default category: **Suspicious Activity**.

Field	Required	Notes
Title	Yes	Example: "Broken gate at south entrance"
Category	Yes	Long dropdown list of issue types
Category other	If Other	Shown when category is Other — "Type the issue type..."
Details	Yes	Multi-line: what, where, and any action taken

Issue categories: Suspicious Activity, Suspicious Person, Suspicious Vehicle, Trespassing, Unauthorized Access, Homeless / Encampment, Theft / Attempted Theft, Vandalism / Property Damage, Disturbance / Fight, Noise Complaint, Safety Hazard, Medical Emergency, Fire / Fire Alarm, Accident / Injury, Parking Violation, Vehicle Incident, Access Control Issue, Door / Gate / Lock Issue, Maintenance Issue, Policy / Rule Violation, Guest / Resident Assistance, Visitor / Vendor Issue, Welfare Check, Delivery / Package Issue, Lost & Found, Patrol Observation, Police / Fire / EMS Response, Follow-Up Required, Information Report, Other.

2. Incident Report

Preview form to document a security or safety incident. Default category: **Security**. Date & time defaults to now.

Field	Required	Notes
Title	Yes	Example: "Break-in at the north gate"
Category	No*	Security, Medical, Fire, Theft, Property Damage, Accident, Other
Date & time	No*	Defaults to current date/time
Location	No	"Where did it happen?"
People involved / witnesses	No	Optional names or descriptions
Description	Yes	What happened — who, what, when, where, action taken

*Only Title and Description are required for Incident Report. Category, date/time, location, and people involved are optional.

Comparison: Onsite and Patrol reports do not include these structured preview fields; they continue with media capture / rounds only.
