Patrol Log Visit — Complete Example Objects

SmartNPS360 developer reference · Upload meta for POST /api/visits · Cases: Checkpoints · Tags · Normal patrol

Field	Checkpoints	Tags	Normal
checkpoints[]	yes	no	no
round_tag on items	no	yes	no
per-item site_patrol_window_id	no	yes	no
additional media in items[]	yes (unlinked)	all tagged	all free
visit_type: site_check	no	no	no

Media files are sent as multipart alongside this JSON. items[i] maps to file index i via client_index / photo_client_index. Additional media = items not referenced from checkpoints[].

1) Checkpoints patrol

Has checkpoints. Completed checkpoint media is linked via photo_client_index. Extra captures without a checkpoint stay in items[] as additional media. No round tags.

}
```

Index 0–1 = checkpoint media · Index 2–4 = additional media (not linked to a checkpoint).

2) Tags patrol (round tags)

Has round tags / patrol_windows. Each media item includes round_tag + site_patrol_window_id. No checkpoints[] block. Not a site check.

      "round_tag": "Exterior",
      "site_patrol_window_id": 288
    }
  ]
}
```

Bridge patrol_windows enable this flow: Interior Rounds (287) + Exterior (288).

3) Normal patrol

No checkpoints, no round tags, not a site check. All media is free/additional. No checkpoints[] and no round_tag on items.
